

# Enchanted CUPCAKE PARTY Game

## Contents:

- 36 Cupcake Ingredients
- 15 Game Tiles
- 9 Recipe Cards
- Instructions

## Object

Bake as many cupcake Recipes as you can before the cupcake party begins!

## Setup

- 1 Separate all the cupcake Ingredients and place them in a pile where everyone can reach them.
- 2 Give each player a number of Recipe cards based on the number of people playing. Put any extra cards back in the box.
 

2 Players: 4 Recipe cards	4 Players: 2 Recipe cards
3 Players: 3 Recipe cards	5 Players: 1 Recipe card

Each Recipe card has a blue side and a gold side. Choose which color to use for this game. All players must use the same color Recipe card. For the next game, use the other side.

- 3 Turn all the Game tiles face down in the center of the play area and mix them up.

## Recipe Card

Blue **OR** Gold

All players must have the same color sides of their Recipe cards face-up.

## Want to bake more cupcakes?

This game can be combined with the Disney Princess Enchanted Cupcake Party Game! Players use all the Ingredients and choose which Recipes to bake.

If players use more than one Recipe from a game, they should be the same color.

# How to Play

On your turn, flip over a Game tile and follow the instructions below for the type of tile flipped. Leave the Game tile face up in the middle of the play area. If the tile shows an Ingredient you no longer need, take any other Ingredient. When a cupcake is completed, put it on top of the matching Recipe card.

Take any one **Topper** you need to complete one of your Recipes.

Take any one **Frosting** you need to complete one of your Recipes.

Take any one **Cake** you need to complete one of your Recipes.

Take any one **Wrapper** you need to complete one of your Recipes.

Take **any one cupcake Ingredient** you need to complete one of your Recipes.

## STIR TILES

If you flip over a **Stir** tile, turn all face-up tiles in the center of the play area face down again (**except** the Clock tiles) and mix them up.

## CLOCK TILES

If you flip over a Clock tile, place it face up near any other Clock tiles. When all 4 Clock tiles are turned face up, the game is over. Remember: Do not turn Clock tiles face down when a Stir tile is revealed.

## Play Cooperatively!

*For younger players and players who prefer to work together rather than compete.*

All players bake together against the clock. To set up, put 3 Recipe cards in the center of the play area, along with the pile of Ingredients and the face-down Game tiles. All 3 Recipe cards must be the same color. On your turn, flip over a Game tile and follow the instructions. You can add the Ingredient to any of the 3 Recipes. To win, work together to bake 2 complete cupcakes before 4 Clock tiles are turned face up! All players win or lose together. Solo players can also play against the clock on their own!

## Ending the Game

The game ends in one of two ways:

- 1 If all 4 Clock tiles are turned face up.
- 2 If one player completes all the cupcakes on their Recipe cards.

**It's time for the party! Each player counts their completed cupcakes. The player with the most completed cupcakes wins! If there is a tie, both players win.**

Cupcake game pieces are not edible.  
Adult supervision required.

**WARNING:**  
**CHOKING HAZARD** — Small parts.  
Not for children under 3 years.
